	Level	Transparency	Research	Standardization	Replication	Fidelity Scale	Meaningful Outcomes
Evidence- Based Practices	I	yes	>=3 studies in peer reviewed journal. Minimum of one study should be based on a randomized control trial.	yes	yes	yes	yes
	II	yes	>=3 studies in peer reviewed journal. Studies should be at least quasi- experimental.	yes	yes	in develop- ment or no	yes*
	ш	yes	>=3 studies in peer reviewed journals. Less rigorously controlled studies will be considered.	yes	yes	no	yes*
Non Evidence-	IV	yes	None	no	no	no	yes
Based Practices	V	no	None	no	no	no	no
	VI	no	Yes	yes	yes	no	no

Create a Bridge Between Science and N.A. Culture Validation

Scientific Validated	Cultural Validated			
Transparency	Longevity in historical tribal history			
• Standardization	Tribal Based Practice manual			
• Replication	 Cultural replication within tribe and/or other tribes 			
• Research	Meets Tribal principles			
• Outcomes	• Outcomes			
• Study design	Traditional Worldview applies			
• Fidelity	According to Tribe/Tribal Nation
